

Are you beside a flowing river?

RECENT Toolkit: Choosing a Suitable Renewable Energy Technology for Your Electricity Needs

Is there an average wind speed of at least 5.5 metres per second on site?

Does you have an unshaded SE to SW facing roof or land of at least 24.5m²?

Is there enough feedstock available locally? (Min of 5K tonnes for 250kw plant.)

Is there a sustainable waste source available locally and cheaply to supply the incinerators?
